# EASY ACCESS

SYDNEY'S GEOGRAPHICAL HEART

Situated in the geographical heart of Sydney just 24km from the CBD, The Crescent is under 30 mins from several major city centres. Open and accessible to a broad demographic, it's the ideal choice for hosting local and international entertainment.

## Parramatta

Parramatta is the future growth centre of Sydney and offers a wide range of attractions. Its population of 236,000 is comprised of a vibrant and youthful culture with the average age well below the national average.

**UNIQUE**

BE PART OF THE HISTORY

The Crescent is a unique and pristine serviced site set within the World Heritage listed Parramatta Park, one of the earliest People's Parks in the world. The scene of historical significance is set as visitors enter via the George Street Gatehouse, wander past Old Government House and enter The Crescent's natural amphitheatre boasting views over Parramatta River.

The Crescent has hosted Australian legends such as John Farnham, Midnight Oil, You am I, Spider Bait and major events such as Harvest Festival, so it seems only fitting that the history making continues with the next wave of big entertainers performing in Parramatta.
